Extract Full Value From the Fuji Xerox DocuMate Scanner Range with

Solution Assist

Powerful DocuMate Scanning Solutions…

The DocuMate 3220, 3125 and 4440i models all come standard with a powerful suite of software that enables end-customers to improve efficiency around the pre-scan process, and enhances the workflow and productivity that follows.

Visioneer OneTouch

Visioneer OneTouch® is an easy-to-use utility that allows you to save regularly used scanning processes and greatly improve productivity, and minimise errors, in the scanning process.

Visioneer Acuity

Acuity enables your scanner to instantly improve the visual clarity of every document that you scan, increasing OCR accuracy, automatically deletes blank originals and auto-crops to the original document size.

Nuance OmniPage Pro

OmniPage Pro quickly turns scanned hard-copy documents into editable, formatted text that can be used in virtually any word processing, desktop publishing or web publishing program.

Nuance PaperPort

PaperPort transforms paper documents into searchable digital documents and combines the efficiency of document management and the power of creating PDF files,

Nuance PDF Converter Pro

Nuance PDF Converter creates, converts, edits, assembles, and securely shares PDF files for increased productivity, enhanced collaboration, and improved compliance.

…Meet Solution Assist

eAssist

The challenge with any software solution is to first learn how it works, and then apply it to your specific business process so it helps you work smarter. Solution Assist is a Fuji Xerox Professional Service that fast-tracks the end-customers learning curve so they receive maximum return-on-investment from day 1.

Be Quick, Special Offer Only Until 31 March 2017

Until 31 March 2017 three models of DocuMate scanner range – the 3220, 3125, and 4440i - will include professional technical assistance by SCP certified staff, conducted remotely via Solution eAssist. Once the hardware has been installed by our Channel Partner or end-customer, a comprehensive 3 hour session (valued at $180, but included as part of the bundle offer) helps with the installation of the hardware driver, and specialist training of the bundled software.
